

A quick guide to our classes

These multi-sensory classes provide a perfect introduction to music and singing for your baby. From a very young age, your baby will be able to recognise and respond to the pattern and rhythm of music and will enjoy being held, rocked, swayed and soothed as you enjoy the class together. We will introduce you to lots of new songs (plus many old favourites) that you will be able to continue to enjoy together at home.

In our Mini Bugs classes, your baby and toddler are encouraged to interact and move around during the session as we explore a wonderful range of tactile, exciting props and get to grips with finger play rhymes, counting songs, knee bouncers and action songs. We continue to develop our social and physical skills in these classes and gain in confidence as we make new friends.

Often our most lively classes as children make use of every opportunity to express themselves through music and movement. Rhythm work, counting songs and action songs are designed to further develop our confidence and independence. Our language skills are noticeably improving as we build up our repertoire of songs and begin to engage in imaginative role-play.

There's a real family feel to these classes as siblings, grandparents, childminders and friends come together to sing and share the music making experience. Our Franchisees and Class Leaders work very hard during these sessions to ensure that everyone is included. A wide range of sensory props and activities keeps everyone engaged meaning that Family Bugs remain some of our most popular classes.

There is a degree of flexibility with these age ranges, please speak to your Class Leader for further details.
